Dear Parents/Guardians,

Child & Family Services of Yuma, Inc. offers outpatient counseling for children and their families. We, along with other agencies, have recently partnered with **O.C. Johnson School** to become a part of their Community School network. We will have staff on campus **every other Thursday of the month from 8:30am thru 11:00am** to answer any questions about our agency or to schedule a time for an appointment.

Our program provides a wide continuum of out-patient services for children with behavioral health problems and are experiencing problems with coping skills and everyday living skills. Our outpatient clinical services include: individual and family therapy, group therapy, family support, and direct support services in the community or in the home. Restoring family unity is our primary goal. We seek solution-based approaches that focus on recovery for the child and family. Listed below are some of the services our program offers-
